10. Then configure the polygon network.

- **Network Name:** Matic Mainnet

- **New RPC URL:** <https://rpc-mainnet.maticvigil.com/>
- **ChainID:** 137
- **Symbol:** MATIC
- **Block Explorer URL:** <https://explorer.matic.network/>

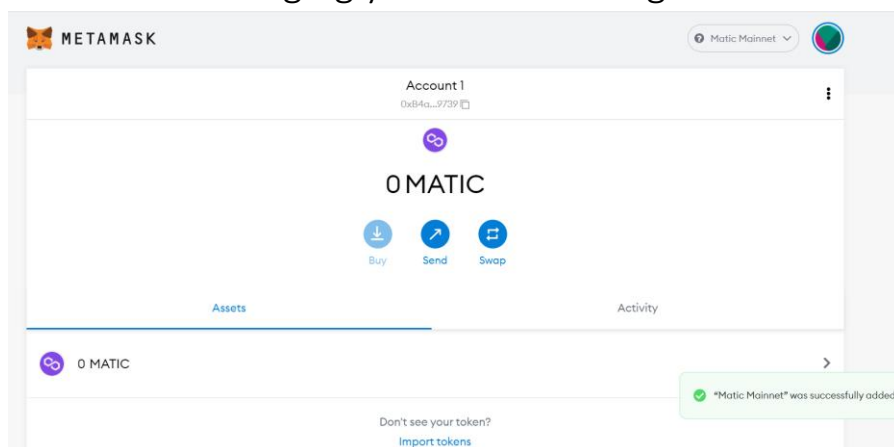

11. It will look like this

The screenshot shows the 'Add a network' interface in MetaMask. At the top, there's a breadcrumb 'Networks > Add a network'. Below it is a yellow warning box with an information icon and text: 'A malicious network provider can lie about the state of the blockchain and record your network activity. Only add custom networks you trust.' The form has several input fields: 'Network Name' (filled with 'Matic Mainnet'), 'New RPC URL' (filled with 'https://rpc-mainnet.maticvigil.com/'), 'Chain ID' (filled with '137'), 'Currency Symbol (Optional)' (filled with 'MATIC'), and 'Block Explorer URL (Optional)' (filled with 'https://explorer.matic.network/'). At the bottom are 'Cancel' and 'Save' buttons.

12. Then click on Save

13. After changing your interface logo will be changed like this

This means your Matic network has been successfully configured with MetaMask.
